DETAILED ACTION

Allowable Subject Matter

1. The Examiner acknowledges Applicant's submission of the communication filed on 05/18/04.

2. The allowed claims are 35-41.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest the recitations of the specific features of the method of claim 35, including especially the following:
The primary reason for the allowance of independent claim 35, is the inclusion of the controllably inputting matter into the volume through the at least one input connector and controllably exhausting matter from the volume through the at least one exhaust connector, and controlling the flow and pressure of fluids directed into and out of the isolating means to in turn, provide a localized hyperbaric treatment of an affected area, claimed in combination with the dressing assembly, base member, cover member, and hermetic sealing with a conduit.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lamb, Metters ('765), Metters ('995), Spiegelberg, Cioca and Alvin are cited to show medical dressing assemblies and methods:
